THE UNITED STATES NAVAL ACADEMY

HISTORICAL SKETCH

The United States Naval Academy is an institution of higher education conducted by the Navy Department for the purpose of preparing young men to enter the lowest commissioned ranks of the Navy and Marine Corps. It was founded as the Naval School in 1845 by the Honorable George Bancroft, historian, educator, and Secretary of the Navy, to improve the then unsatisfactory methods of instructing midshipmen. It was located at Annapolis, Md., on the site occupied by Fort Severn, which was given up for the purpose by the War Department. At first the course was 5 years, of which only the first and last were spent at the school, the intervening 3 years being spent on board ships on active service. It was reorganized in 1850-51 as the United States Naval Academy, with a course of study of 4 consecutive years. A summer practice cruise replaced the omitted sea service, and gave better opportunities for intensive training. During the Civil War the Academy was moved to Newport, R.I., but was brought back to Annapolis in 1865, where it has since remained. In the following years great improvements were effected in the organization and curriculum. From 1873 to 1912 the academic course was 6 years, the last 2 of which were spent at sea. In 1912 the course was fixed at 4 years, the 2 years at sea being omitted. During the Civil, Spanish-American, and World Wars, the course was shortened to provide more officers for the fleets. During the World Wars large classes of Reserve officers and Reserve midshipmen were trained at the Academy.

The students undergoing the course at the Naval Academy have been called in turn: acting midshipmen, midshipmen, cadet midshipmen and cadet engineers, naval cadets, and since the act of Congress approved July 1, 1902, midshipmen. A midshipman is an officer in a qualified sense. He is appointed a midshipman in the Navy, not merely at the Naval Academy, is subject to the orders and regulations of the Navy Department, but does not now participate in the benefits of retirement or longevity. He may be ordered to sea duty although this is not customary except on practice cruises. He ranks after a commissioned warrant officer, and ahead of a warrant officer. Upon graduation he may be commissioned an ensign in the line of the Navy, or a staff corps, or as a second lieutenant in the Marine Corps. In addition, 13 members of the class of 1961 were commissioned as second lieutenants in the United States Army and 46 as second lieutenants in the United States Air Force in accordance with Section 541, Title 10, United States Code.

Academic departments were reorganized on June 4, 1959. Under the Superintendent, three academic directors were given cognizance over new departments as follows: Director of Science and Engineering—Mathematics, Science, and Engineering Departments; Director of Social Science and Humanities—English, History, and Government, and Foreign Language Departments; Director of Naval Science—Command, Weapons and Naval Hygiene Departments; and the Commandant of Midshipmen—Executive and Physical Education Departments.

At present about 25 percent of the academic work is devoted to the social-humanistic subjects, about 50 percent to the scientific-engineering subjects, and about 25 percent to the military-professional subjects.

Commencing in the academic year 1959-60, a new flexibility was introduced into the Naval Academy curriculum in permitting the validation of prescribed courses and the undertaking of alternate or elective courses in lieu thereof. Another departure from tradition was the substantial broadening of course offerings and the arrangement whereby well qualified midshipmen were permitted to take elective courses in addition to the basic curriculum. Under these arrangements it is now possible for some midshipmen to meet requirements for designation of a major area of concentration.

The Naval Academy Library comprises about 150,600 volumes, with many popular, technical and naval magazines. The collection of naval histories and of naval biographies, of works on the development of various types of ships, of seamanship, navigation, aeronautics, ordnance, and gunnery is especially strong. It is well developed in history, biography, international law and relations, travel, and in reference works, with other subjects in less degree. In addition, a collection of the best current fiction is maintained for recreational reading.

Beginning in the year 1899, following an appropriation of \$10 million by Congress for the purpose, the Naval Academy was almost completely rebuilt in the French Renaissance style after the designs of the architect, Mr. Ernest Flagg, of New York. The grounds of the Academy proper now comprise 290.78 acres (Government-owned) and 17.26 acres (leased) along the west bank of the Severn River, on which are 248 buildings with equipment totaling an original cost of \$53,353,684.

An act of Congress approved on May 25, 1933, authorized the Superintendent to confer the degree of bachelor of science upon all graduates from and after the date of the accrediting of the Academy by the Association of American Universities. That association had placed the Naval Academy on its approved list on October 25, 1930, and graduates commencing with the class of 1931 became eligible for the degree. By virtue of an act of Congress approved July 8, 1937, the Superintendent is now authorized to confer the degree upon all living graduates.

The total number of graduates of the United States Naval Academy, including the class of 1961, is 30,610.

The administration of the Naval Academy is under the Bureau of Naval Personnel, Department of the Navy, Washington, D.C. Entrance requirements are fully set forth in the pamphlet "Regulations Governing the Admission of Candidates Into the United States Naval Academy as Midshipmen," copies of which may be obtained by application to the Bureau of Naval Personnel. A description of the course of instruction is contained in the pamphlet, "Course of Instruction at the United States Naval Academy, Annapolis, Md.," copies of which may be had by applying to the Academy.

EXPLANATION OF COURSE NUMBERS

In order to have available a brief, explicit means for identification, course numbers are assigned to each basic and elective course in accordance with the following system:

- (a) The letter prefix identifies the department conducting the course.
- (b) 2-digit numbers indicate courses of the basic curriculum, while 3-digit numbers are used to indicate elective courses.
- (c) The first number serves to identify the course as follows: 1 and 5 are 4th class level courses; 2 and 6, 3d class; 3 and 7, 2d class; and 4 and 8, 1st class. A 9 designates a course of a special nature.
- (d) The last number: An odd number identifies a course normally taught the 1st semester, and an even number the 2d semester.
- (e) The letter suffix is a foreign language designator.
- (f) The suffix (X), when it appears with the course number of a course offered by the English, History, and Government Department, is a designator indicating that such an elective included an additional 1-hour credit for research paper on the subject matter of the course involved.

MIDSHIPMEN WHO COMPLETED ELECTIVE OR ALTERNATE COURSES DURING THE ACADEMIC YEAR 1960-61

This report covers midshipmen of all classes who completed elective courses, and midshipmen of the 3d and 4th classes who validated some portion of the basic curriculum and who completed alternate courses in lieu thereof. If the symbol # follows the catalog designation, it indicates that an unsatisfactory term mark was received.

Courses are identified by their catalog designations and full course titles are given on pp. 118-120.

EXPLANATION OF SYMBOLS USED IN THE LIST OF MIDSHIPMEN OF THE FOURTH CLASS TO INDICATE METHOD OF QUALIFYING SCHOLASTICALLY AND SOURCE OF APPOINTMENT DATA GIVEN IN THE COLUMN HEADED "APPOINTED FROM"

Methods of qualifying scholastically:

C—Qualified by the college certificate method.

E—Qualified by school records and College Entrance Examination Board tests.

Congressional.—Entered in accordance with the provisions of the law which allows five midshipmen for each Senator and Representative in Congress.

Navy or Marine Corps.—Entered by competitive examination under the provisions of the law which authorizes the Secretary of the Navy to make 160 appointments annually from among the enlisted personnel of the Regular Navy or Marine Corps.

Naval Reserve or Marine Corps Reserve.—Entered by competitive examination under the provisions of the law which authorizes the Secretary of the Navy to make 160 appointments annually from among the enlisted personnel of the Naval Reserve or Marine Corps Reserve.

Presidential.—Entered by competitive examination under the provisions of the law which authorizes the President of the United States to make 75 appointments annually from the United States at large.

In the event that the quota of midshipmen authorized by law to be appointed annually to the Naval Academy from (1) enlisted men of the U.S. Navy and Marine Corps, (2) enlisted men of the Naval Reserve or Marine Corps Reserve, or (3) by the President, at large, is not filled, the Secretary of the Navy may fill the vacancies in such quota by appointing other candidates from any other of such sources who were found best qualified on examination for admission into the Academy and not otherwise appointed.

Vice Presidential.—Entered in accordance with the law which authorizes five appointments at large by the Vice President of the United States.

Honor Military School, Honor Naval School, or NROTC.—Entered by competitive examination under the provisions of the law which authorizes the Secretary of the Navy to make 20 appointments each year from among honor graduates of honor military or naval schools and Naval Reserve Officers' Training Corps units.

District of Columbia.—Entered under the provisions of the law which authorizes the President of the United States to make five appointments from the District of Columbia.

Public Law 228, 79th Congress.—Entered under the provisions of an act of Congress which authorizes the President of the United States to appoint the sons of persons who have been or shall hereafter be awarded a Medal of Honor in the name of Congress for acts performed while in any of the armed forces of the United States.

Public Law 229, 79th Congress., as amended by Public Law 381, 83d Congress.—Entered by competitive examination under the provisions of the law which authorizes the President of the United States to make 40 appointments from among the sons of members of the land, air or naval forces (including male and female members of the Army, Air Force, Navy, Marine Corps, and Coast Guard, and of all components thereof) of the United States, who were killed in action or have died, or may hereafter die, of wounds or injuries received, or disease contracted, or preexisting injury or disease aggravated, in active service during (1) World War I or World War II; or (2) the period beginning 27 June 1950 and ending on 31 January 1955.

Public Law 586, 81st Congress, 2d session.—Entered under the provisions of an act of Congress approved June 30, 1950, which authorizes the Secretary of the Navy to appoint additional qualified alternates to meet the needs of the armed services, but not to exceed the authorized strength of the brigade of midshipmen. Such appointments are in addition to, and not in lieu of, appointments otherwise authorized by law.

Puerto Rico (Governor) and (Resident Commissioner).—Entered in accordance with the provisions of laws which allows one midshipman from Puerto Rico appointed by the President on the recommendation of the Governor of Puerto Rico and five midshipmen appointed on the nomination of the Resident Commissioner.

Canal Zone.—Entered in accordance with the provisions of the law which allows one midshipman from among the sons of civilians residing in the Canal Zone and the sons of civilian employees of the U.S. Government and the Panama Canal Company residing in the Republic of Panama, whose appointment shall be made by the Secretary of the Navy on the recommendation of the Governor of the Panama Canal.

American Republics.—Entered in accordance with the provisions of the law which provides that the Secretary of the Navy is authorized to permit upon designation of the President of the United States, not exceeding 20 persons at a time from the American Republics (other than the United States) and not more than 3 from any of such Republics to receive instruction at the Naval Academy at the same time. Such persons will not be entitled to appointment to any office or position in the U.S. Navy by reason of their graduation from the Naval Academy.

Philippine Islands.—Entered in accordance with the provisions of the law which provides that the Secretary of the Navy is authorized to permit upon designation of the President of the United States, not exceeding four Filipinos at a time to receive instruction at the Naval Academy. Such persons will not be entitled to appointment to any office or position in the U.S. Navy by reason of their graduation from the Naval Academy.

U.S.S. <i>Vogelgesang</i> (DD 862)	U.S.S. <i>Borie</i> (DD 704)
U.S.S. <i>DuPont</i> (DD 941)	

On June 7th the midshipmen embarked in U.S.S. *Wahkiakum County* (LST 1162) and U.S.S. *Rockbridge* (APA 228) at Annapolis for redistribution to cruise ships in Norfolk for those embarked in *Wahkiakum County* and in the Caribbean for those embarked in *Rockbridge*.

Operations were conducted in two phases, ALFA and BRAVO. Phase ALFA, commencing as soon as the midshipmen were embarked, consisted of strike fleet training operations (LANTFLEX 2-61) to insure maximum fleet readiness. Phase BRAVO, commencing on July 10, consisted of a NATO STRIKE EXERCISE (RIPTIDE II) with Canadian forces.

Participating forces included Task Forces 24, 25 and 201. Liberty ports visited included: Norfolk, Va.; Wilmington, Del.; New York City, Poughkeepsie, and Kingston, N.Y.; Bar Harbor, Eastport, Rockland, Bath, Rockford, and Camden-Portland, Maine; New Bedford, Provincetown, Salem, Edgartown, and Boston, Mass.; Newport, R.I.; New Haven and Bridgeport, Conn.; Philadelphia, Pa.; Charleston, S.C.; Portsmouth, N.H.; Wilmington, N.C.; Savannah, Ga.; and Mayport, Fort Lauderdale, Miami, and Cape Canaveral, Fla.

On July 20, the new fleetwide Fireman and Seaman Examinations were given to the Naval Academy third class midshipmen on board cruise ships of the 2d Fleet. These examinations, consisting of 150 questions each, were prepared by the Naval Examining Center, Great Lakes, and distributed to the cruise ships

by the Naval Academy. The results of this experiment were most interesting. The midshipmen third class averaged 3.22 on the Fireman Examination and 3.01 on the Seaman Examination. It was found that the midshipman averaged grade varied considerably in accordance with the particular ship in which they happened to be embarked. On some ships the midshipman average was as high as 3.57 while in others the average was as low as 2.78.

The Naval Academy midshipmen were transferred to ships of Amphibious Squadron 8 on July 27th and debarked at the Naval Academy on July 28th.

In addition to the Naval Academy midshipmen, 160 NROTC midshipmen first class participated in the cruise.

FIRST CLASS (1962) FLEET CRUISES

Mediterranean Midshipman Cruise 1-61

There were 321 Naval Academy midshipmen first class assigned to units of the U.S. 6th Fleet, consisting of 3 aircraft carriers, 2 guided missile cruisers, 22 destroyers and 2 submarines. The midshipmen participating in this cruise sailed from Norfolk on June 8th in one carrier and five destroyers and joined their assigned ships in the Mediterranean on June 21st.

During the period from June 21 to July 22 the ships of the 6th Fleet participated in fleet exercises, dispersed to operate in smaller units and visited liberty ports throughout the Mediterranean as follows:

Barcelona, Spain	Naples, Italy
Palma, Majorca	Cannes, France
Golfe Juan, France	Villefranche, France
Gaeta, Italy	San Remo, Italy
La Spezia, Italy	Beaulieu, France
Savona, Italy	Menton, France
Vado, Italy	Genoa, Italy
Ancona, Italy	Athens, Greece
Monaco	

On July 22 the midshipmen were disembarked at Cannes, Pisa, and Naples for airlift to the United States by Military Air Transport Service aircraft and were returned to the Naval Academy on July 24.

In addition to the Naval Academy midshipmen, 70 NROTC midshipmen first class participated in the cruise.

Mediterranean Midshipman Cruise 2-61

There were 207 Naval Academy midshipmen first class assigned to the second cruise in the same ships of the 6th Fleet as the first cruise. They were airlifted from the United States on July 20 and embarked in their assigned ships at Cannes, Pisa, and Naples on July 22.

During the periods July 24-28 and August 7-13, these 6th Fleet ships participated in fleet exercises.

During the period July 29 to August 6 the ships were dispersed in the following ports:

Rapallo, Italy	Alghero, Sardinia
Elba, Italy	Cagliari, Sardinia
Naples, Italy	St. Jean, France
Livorno, Italy	St. Raphael, France
Palermo, Sicily	Polensa Bay, Majorca
Genoa, Italy	

On August 16 the midshipmen were redistributed in 2 carriers, 1 cruiser, and 10 destroyers, and departed for the United States, arriving at Norfolk at various times from August 25 to 31. From Norfolk they were transported by bus to the Naval Academy.

In addition to the Naval Academy midshipmen, 180 NROTC midshipmen first class participated in the cruise.

This year, as last, midshipmen participating in the Mediterranean cruises were permitted to take leave in Europe prior to the commencement of MEDCRU II and after completion of MEDCRU I.

Atlantic Midshipman Submarine Cruises

Seventy Naval Academy midshipmen first class were assigned to 35 nondeployed submarines in groups of two per submarine for the first cruise, during the period June 8 to July 21. On the second cruise, there were 25 Naval Academy and 45 NROTC midshipmen first class assigned to 37 submarines during the period July 22 to September 5. The midshipmen experienced normal submarine operations under the Submarine Refitting and Retraining Group Commanders at New London, Norfolk, Charleston, and Key West. For the first time, Nuclear submarines were made available for these cruises and 14 midshipmen were able to take advantage of this unusual opportunity to cruise in the world's most modern submarines.

Atlantic Midshipman Destroyer Cruises

Eighteen Naval Academy midshipmen first class were assigned to seven destroyers in groups of two or three per ship for the first destroyer cruise, during the period June 9 to July 21. On the second cruise there were 18 Naval Academy midshipmen assigned to 8 destroyers during the period July 22 to September 1. The midshipmen experienced refresher and shakedown training on board the destroyers, operating with the Fleet Training Group in Guantanamo Bay, Cuba.

Pacific Midshipman Submarine Cruise 1-61

Ten Naval Academy midshipmen first class were assigned to five submarines operating out of Pearl Harbor during the period June 18 to July 29. Two of these submarines were nuclear powered. The midshipmen participated in normal submarine operations and were transported between the Naval Academy and Hawaii by commercial air.

Arctic Midshipman Cruises 1-61 and 2-61

Twelve Naval Academy midshipmen first class embarked in the USCGC *Westwind* at Argentia, Newfoundland, and participated in arctic operations during the period June 7 to July 20, debarking at Thule, Greenland. Transportation to and from the Naval Academy was by Government air. Six Naval Academy midshipmen embarked in the icebreaker U.S.S. *Atka* (AGB 3) at Sondstrom, Greenland, on 9 June and participated in arctic operations until 15 August, when they debarked at Boston. Six NROTC midshipmen first class also participated in this second cruise.

Eagle Cruise

One Naval Academy midshipman first class and 12 midshipmen, third class, cruised with cadets of the U.S. Coast Guard Academy in the Coast Guard training ship *Eagle* during the period June 9 to August 9.

Foreign Exchange Cruises

The summer of 1961 at the Naval Academy saw the addition of Foreign Exchange Cruises to the already worldwide midshipman summer cruise program. This innovation brought about the exchange of midshipmen, or their equivalent, between six NATO nations (U.S.A., Germany, France, Great Britain, Italy, and Canada) and five Latin American States (Brazil, Chile, Colombia, Peru, and Uruguay). This program will continue throughout the winter as nations participate whose summers are reversed with the summers of northern latitudes.

The new program in which 20 U.S. Naval Academy midshipmen first class took part, 2 to each participating country, was conceived by Adm. Arleigh Burke and implemented by the Bureau of Naval Personnel and the Naval Academy through the respective naval attachés of each country.

These cruises in the vessels of foreign navies have been accepted by the midshipmen most enthusiastically. The experiences related have in many cases bordered upon the fantastic—picture a midshipman embarked in a small gunboat deep in the Amazon hinterland making stops at primitive Indian villages carved out of the forests. Or, a midshipman embarked in a British carrier off of Aden, a midshipman high in the rigging of an Italian bark, a midshipman patrolling the Baltic in a Federal German naval torpedo boat, or a midshipman embarked in a Chilean cruiser dashing through the narrow inland passages off the southwestern coast of South America where maneuvering room is barely sufficient for a YP.

Professionally, some of the cruises approached outstanding. But, paramount was the unexcelled opportunity to participate in a People-to-People project, to use the language, to observe at first hand the social and cultural conditions of each nation.

The extremely favorable reception of the program by all nations is dictating not only continuation but expansion in future years.

Voluntary Airborne Training

Forty-two midshipmen of the first and third classes completed the prescribed airborne course at Fort Benning, Ga., on a voluntary basis during their leave period. All training was conducted at the individual midshipman's expense. All midshipmen were rated qualified parachutists.

ANNUAL LEAVE

All midshipmen involved in the various cruises were granted periods of leave of at least 30 days at various times during the summer.

SECOND CLASS (1963) SUMMER INSTRUCTION—1961

The class of 1963 numbered approximately 944. The class was divided into 3 groups of about 288 midshipmen each, plus a Plebe Supervisory Detail of 78 midshipmen. The latter group remained in Annapolis to supervise and instruct the new class of incoming plebes. The three main groups traveled in succession to the places described below. Each group was granted 30 days' leave, either before or after the aviation and Philadelphia phases.

TRAMID PHASE. Instruction in amphibious doctrine with participation in an amphibious landing occurred between 8 and 22 June at the Naval Amphibious Base, Little Creek, Va. TRAMID stands for "training of midshipmen."

PENSACOLA PHASE. Chief of Naval Air Basic Training conducted basic flight training for each midshipman in various types of training aircraft for a period of about 15 working days. A total of 11 participating flights per midshipman was accomplished. This included a jet flight and a helicopter flight.

JACKSONVILLE PHASE. Commander Fleet Air Jacksonville (Florida) coordinated a 9-working-day period in the Jacksonville-Key West areas. While at the Jacksonville area, midshipmen received indoctrination in day fighters, attack aircraft-day, all weather attack aircraft-day, and Fleet Air Wing aircraft. While at the Key West area, midshipmen received 1 day of submarine indoctrination and indoctrination in Air ASW. One-half day each was spent with squadrons HS-1, VS-30, VX-1, and VF 101. Just before or just after this period, the Air Force hosted each group at Cape Canaveral, Fla., during which visit the midshipmen saw the missile launching installations of each of the military services.

PHILADELPHIA PHASE. Commandant, 4th Naval District, coordinated a 5-working-day period which included a tour of the Naval Shipyard and training at the Naval Boiler and Turbine Laboratory and Naval Damage Control Center.
